### DETAILS OF THE COLLECTION

Jerarquía is an unrivalled collection of old and rare casks of rum, carefully and closely guarded by the Parra family, the masters of Colombian rum. Each cask from this extraordinary family collection has achieved a singular flavour profile, which for the first time Dictador is proud to release.

The rums featured in this rare collection of heirlooms were produced in the heart of Colombia, at a closed distillery, adding a mystique and rarity to the casks. Jerarquía, meaning hierarchy in Spanish, reflects the patience and nobility of these rums which have been allowed to rest in the finest American Oak, Sherry and Port casks.
